**Subject:** Legislative Proposal on Gun Violence

Hello i am writing you to voice my opinion on the upcoming bill on Gun Violence. As a Correctional Officer my eyes are open to the crimes that are committed in all of our neighborhoods that the public doesn't hear about. I am enraged to believe that our so called educated leaders believe banning guns for law abiding citizens will help keep gun violence down. Criminals purchase illegal weapons on the street not in store. We have already and continue to de-criminalize crimes which keep criminals out in the streets and destroying our neighborhoods not behind bars where they belong. We have closed down several correctional facilities and counting just to save a dollar. What about our communities? So banning proposed weapons in this bill only affect law abiding citizens who use guns to protect their family and friends. I hope to see this bill shut down and to put some more common sense into the direction we need to head. I will vote for those who protect our rights not give them up. Please make the right choice
